Sample ICT Interview Questions for Teachers & School ICT Administrators

General Questions

1. Can you briefly introduce yourself and your teaching experience under the CBC and/or IGCSE system?
2. What is your understanding of the key principles and objectives of CBC and/or IGCSE?
3. How do you ensure a learner-centered approach in your lessons?

CBC Curriculum-Specific Questions

4. How do you develop and implement lesson plans that align with CBC and/or IGCSE requirements?
5. Can you share an example of how you have assessed a learner's competencies in your subject area?
6. What strategies do you use to incorporate parental and community involvement in your teaching?
7. How do you handle diverse learners, including those with special needs, under the CBC and/or IGCSE framework?

ICT Integration Skills

8. How proficient are you with using ICT tools such as **E-Learning Systems** in the classroom?

9. Can you share an example of how you have integrated technology to enhance a CBC and/or IGCSE lesson?

10. What software or applications do you regularly use for lesson preparation, delivery, or assessment?

11. How do you ensure online safety for your students during ICT-based activities?

12. Describe how you use digital resources to differentiate instruction for learners with varying abilities.

13. What challenges have you faced in implementing ICT in your teaching, and how did you overcome them?

ICT Certification and Training

14. Do you hold any certifications in ICT, such as ICDL, **ELearning Systems**, or Microsoft Certified Educator? If yes, can you describe their relevance to your teaching?

15. Have you attended any CBC and or IGCSE -specific training on ICT integration? If yes, what key insights did you gain?

16. How do you stay updated with emerging educational technologies?

17. Are you comfortable conducting online classes or using **e-learning platforms**? If yes, which platforms have you used?

Problem-Solving and Practical Scenarios

18. If your school were to introduce a new ICT tool for teaching, how would you approach training yourself and other staff members?

19. Imagine a situation where some learners do not have access to digital devices. How would you ensure inclusivity in ICT-based learning?

20. A colleague is struggling with using technology in their teaching. How would you assist them?

Professional Development

21. How do you balance the use of ICT with traditional teaching methods in CBC?

22. What future trends in ICT for education do you believe will impact CBC teaching, and how are you preparing for them?

23. Are you involved in any ICT-related projects or collaborations within your school? If yes, can you elaborate?

Exameno E-Learning (LMS) and AI Tools Certificate Courses

- All courses are designed for Teachers, Tutors and ICT Administrators
- E-Learning courses are on Moodle LMS - recognized globally
- Provide immense value to teachers, tutors, and ICT administrators by equipping them with practical skills and knowledge to excel in the digital education era.
- The platform offers tailored training on effective e-learning strategies, ICT integration, and the Competency-Based Curriculum (CBC) and IGCSE enabling educators to enhance learner engagement and improve outcomes.
- ICT administrators gain insights into managing and optimizing educational technology systems, ensuring smooth operations in schools.
- These courses empower participants to stay updated with modern teaching tools, foster innovative approaches, and ultimately contribute to a more efficient and inclusive education system.

The Comprehensive E-Learning (LMS) and ICT Training Program

This training series is structured in 3 progressive levels, each designed to build upon the previous, providing a complete foundation in E-Learning Systems.

Level 1: Introduction to E-Learning Management Systems (1 hour)

- Overview and Demonstration of an E-Learning LMS
- Free to attend: Certificate available for **Ksh 200**

Level 2: E-Learning Management (1.5 hours)

- Create courses and content in E-Learning
- Registration & Certificate **Fee: Ksh 400.**

Level 3: Advanced E-Learning Systems (1.5 hours)

- Creating and Managing Virtual Classrooms
- Registration & Certificate **Fee: Ksh 700.**

AI (Artificial Intelligence) Tools for Teaching and Learning (1.5 Hours)

- Creating Engaging educational content
- Registration & Certificate **Fee: Ksh 500**
